

**Save Energy,
Save Money!**

Residential Rebate Program

ELIGIBLE IMPROVEMENTS:

Upgrades not on this list are decided on case by case basis at utility's discretion.

INSULATION

- Ceiling Insulation
- Floor Insulation
- Wall Insulation
-

HEATING & COOLING

- Air Source (Standard) Heat Pumps
- Ductless Heat Pumps
-

WINDOWS/DOORS

- Upgraded from existing single pane, single pane with storm windows or dual pane with metal frames with NFRC Rating of < U.30 and < U.22
- Upgraded patio/french doors with NRFC Rating of U.35 or lower & U.30
- Energy Star exterior doors (pre-hung Energy Star door replacing non insulated existing door)

ELECTRIC HYBRID WATER HEATERS

The Residential Energy Efficiency Program includes rebates for energy efficiency upgrades to homes receiving electricity through Richland Energy Services.

ALL WORK MUST BE PERFORMED BY AN APPROVED CONTRACTOR TO QUALIFY FOR REBATES. THE CITY OF RICHLAND DOES NOT FUND "DO-IT-YOURSELF" PROJECTS.

1. Get as many bids as you wish from the list of approved contractors.
2. Choose the contractor(s) to perform the selected measure(s) on your home and schedule installation times.
3. Once the work is complete, the contractors will present their bills showing discounts for the rebates and ask you to sign the Customer Participation Agreements for each measure.
4. Contractors will submit rebate applications with copies of your bills and other required documents to Richland Energy Services.
5. City of Richland will reimburse contractors for the rebate dollars credited to you on their bills.

Ahorra energía. Ahorra dinero!

Programa de Descuentos Residenciales

MEJORAS

ELEGIBLES:

Las mejoras que no están en esta lista se decidirán caso por caso a discreción de la empresa suministradora.

INSULACIÓN

- Insulación del techo
- Insulación de paredes
- Insulación del suelo

CALEFACCIÓN Y REFRIGERACIÓN

- Bombas de calor de aire
- Bombas de calor sin conductos

VENTANAS/PUERTAS

- Mejora de ventanas existentes de un solo cristal, de un solo cristal con contraventanas o de doble cristal con marcos metálicos con clasificación NFRC de < U.30 y < U.22
- Puertas de patio o francesas mejoradas con clasificación NRFC de U.35 o inferior y U.30
- Puertas exteriores Energy Star (puerta Energy Star precolgada que sustituye a la puerta existente sin insulación)

CALENTADORES DE AGUA HÍBRIDOS ELÉCTRICOS

El Programa de Eficiencia Energética Residencial incluye reembolsos para mejoras de eficiencia energética en hogares que reciben electricidad a través de Richland Energy Services.

TODO EL TRABAJO DEBE SER REALIZADO POR UN CONTRATISTA APROBADO PARA CALIFICAR PARA LOS REEMBOLSOS. LA CIUDAD DE RICHLAND NO FINANCIA PROYECTOS "HÁGALO USTED MISMO".

1. Obtenga tantas ofertas como desee de la lista de contratistas autorizados.
2. Elija al contratista o contratistas que realizarán la medida o medidas seleccionadas en su vivienda y programe los plazos de instalación.
3. Una vez finalizados los trabajos, los contratistas presentarán sus facturas con los descuentos correspondientes a las rebajas y le pedirán que firme los Contratos de Participación del Cliente para cada medida.
4. Los contratistas presentarán las solicitudes de reembolso con copias de sus facturas y otros documentos requeridos a Richland Energy Services.
5. La Ciudad de Richland reembolsará a los contratistas los dólares de reembolso que se le abonen en sus facturas.

The City does not recommend one Contractor over another, endorse, or recommend any materials or products. Authorized Contractors have a City business license, state contractor's license, a performance bond payable to the City, insurance, and a written agreement with the City. HVAC Contractors have at least one employee certified by the Refrigeration Service Engineer's Society. Contractors interested in becoming a City Authorized Contractor should contact the Energy Services office.
